

I was enraged to learn recently that the Sinclair media corporation was planning on using the public airwaves to serve their own one sided political ends. This is a blatant misuse of the public airwaves and should not be tolerated. If they wish to air their own political agenda they need to clearly state it as it is and give FREE airtime to allow a counter statement by those being slandered.

I have great faith in your organization to do what's in the public's best interest and I trust that you will help prevent this blatant abuse of public trust.

Thanks in advance.
